Australia Household Food Budget ← serif

What do ~~~

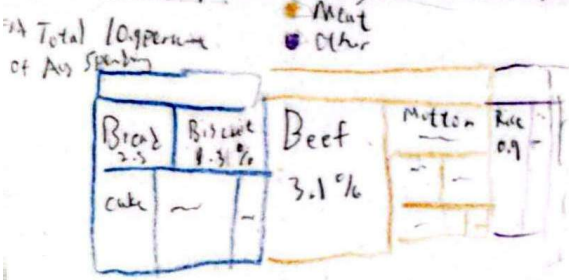

01 Food's Place in Household Budget
(may change to food categories)

G1 (Bump Chart)

(i) Food ~~~ 4th place ~ ~ ~ Recent years ~~~

G12 Treemap

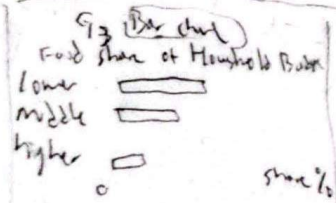

← label only top / highlight

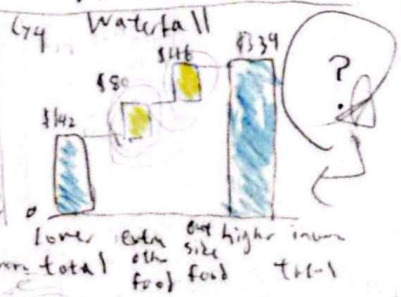

Overall, Beef ~~~

02 Income Groups vs Food

G73 (Bar chart) Food share of Household Budget

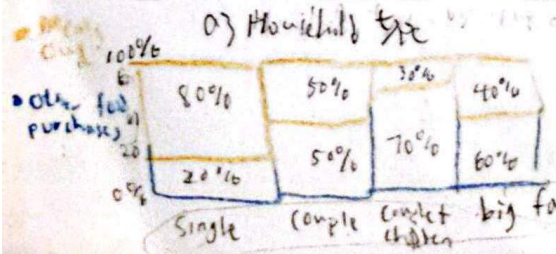

G74 Waterfall

(i) ~~~ explain where the difference go ? draw conclusion: large increase in outside food

03 Household type

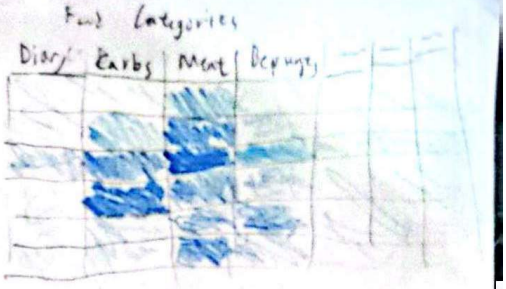

G75 Mosaic Chart

Household type vs categories (per person)

Heat map

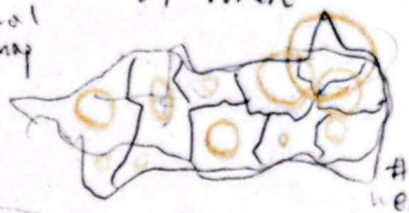

couple children
or parent
single
couple only

(i) ~~~

04 When ?

proportional symbol map

Beverages 0.8% 2.5%

relating

Size encode spending proportion on food

#note: no color encoding

dot density (placed after 02)

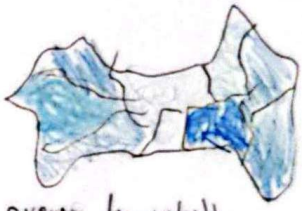

Question: does it have to be related to food? or as long as story flow → ok?

Also, is absolute value ok?

*dot placement do not represent restaurants' location

Choropleth map

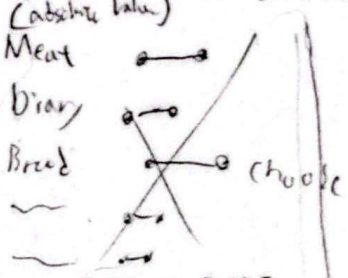

Average weekly spending per household
- 300+
- 200 - 300
- 150 - 200
- 50 - 100
- 0 - 50

Idea 2: use most spent food category

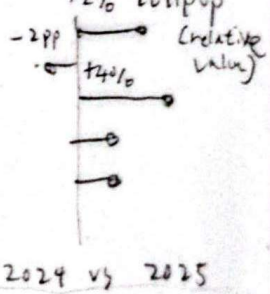

How much average household spend on food per week? (relative value) (should be in part 01)

05 Inflation

dumbell (absolute value)

+2% lollipop

Conclusion
